Recommended revision guides:	https://qualifications.pearson.com/en/qualifications/btec-nationals/information-technology-2016.resources.html?filterQuery=category:Pearson-UK:Publisher%2FPearson
In house booklets:	None, other than your own notes from class
For essay subjects and longer answer questions – suggested question titles for practice:	<p>Ohman runs a small business buying and selling sports memorabilia such as shirts, programmes and medals. He runs his business from a small office with the help of two members of staff.</p> <p>There are three computers in the office used for administration tasks and communication with buyers and sellers.</p> <p>The business currently has a website that is used to advertise the memorabilia. The office computers are over five years old and run an operating system that came preinstalled.</p> <p>Ohman is considering upgrading to the latest available version of a paid-for operating system.</p> <p>Discuss the factors that Ohman should consider before making his decision. (6 marks)</p>
