

Art

The Year 11 Art and Design %'s and predicted grades are based on the recent October assessment. We have rigorously moderated the students' work against AQA assessment objectives to ensure and maintain consistency. Students have continued to progress with portfolio work which they can continue modifying until the deadline **Friday 24th April 2026** (portfolio work counts for 60% of the overall marks). Therefore, assessing this was the most robust measure of how students are developing their knowledge and understanding of the skills learnt so far in Art and Design, matched against their assessed potential in the externally set Year 11 exam. Art and Design students started the exam period in January 26, which, after a 9-week period of preparatory work culminates with a 10-hour exam (the exam counts for 40% of the overall marks).
